

Enhancements to TESSA (February 2025)

WH1 implementations with an Implementation Date after the 19th of December 2024 are not eligible for PRC creation in TESSA

TESSA system has been updated to reflect that WH1 implementations with an implementation date after 19 December 2024 are not eligible for certificate creation, per the recent PDRS Rule change.

This means that TESSA will automatically reject the upload of any CSV Implementation Data file where the PDRS Activity Definition is WH1 and the implementation date is later than 19 December 2024.

This reflects the EDM issued in December 2024 announcing that heat pump water activity WH1 is not eligible for certificate creation after 19 December 2024.

Upload Result

 Red level validation errors are present, preventing upload finalisation. Please resolve and attempt upload again.

 Validation Errors

Row of Spreadsheet 	Import Value	Validation Error Message
7	WH1	Column PDRS Activity Definition Implementations for Activity Definition WH1 occurring after 19/12/2024 are not eligible for certificate registration under the PDRS Rule

  Rows 1 - 1 of 1

Status now visible on the published list of ACPs and Accreditations

The Published List of ACPs and Accreditations in TESSA now displays a "Status" column showing whether each accreditation listed is Active, Suspended or Cancelled.

Under our legislative requirements, IPART must keep a register of Accredited Certificate Providers (ACPs) that includes details about ACP suspensions and cancellations.

Information about ACP suspensions and cancellations is kept in IPART's TESSA system but has not been viewable in the external ACPs and Accreditations view to date.

Home > ACPs and Accreditations

ACPs and Accreditations

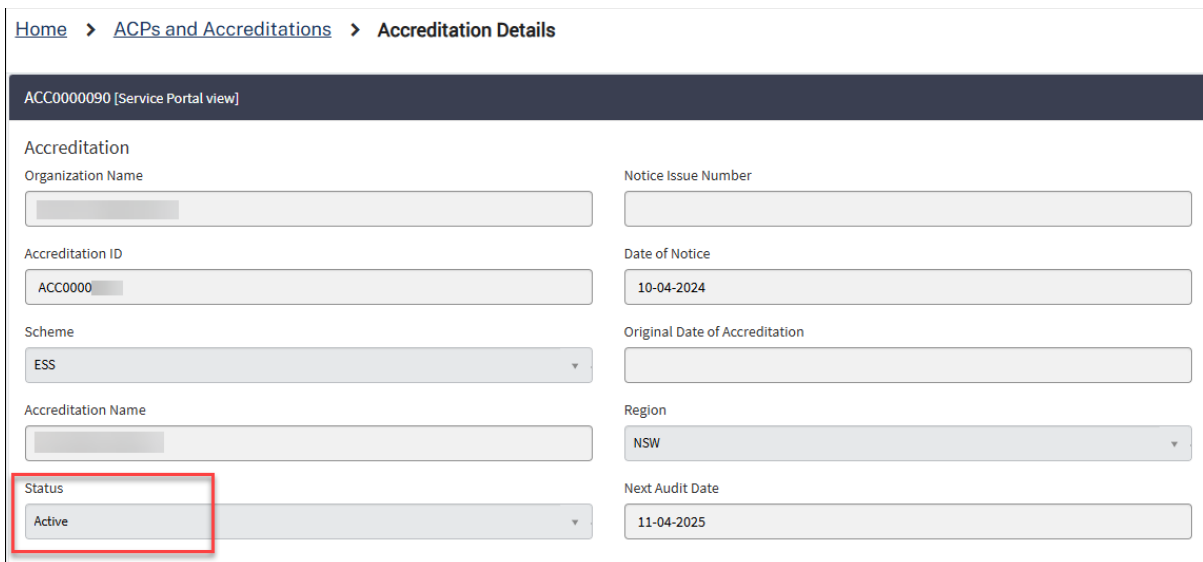

All > Status in (Active, Suspended, Cancelled) > Visibility = Show

Organization Name	Accreditation ID	Scheme	Accreditation Name	Status	Notice Issue Number	Date of Notice	Original Date of Accreditation
[Redacted]	ACC0000	ESS	[Redacted]	Active			
[Redacted]	ACC0000	ESS	[Redacted]	Active		17-03-2024	17-04-2023

The list can be viewed at:

https://tessa.energysustainabilityschemes.nsw.gov.au/ipart?id=acp_and_accreditations, or by selecting "Published List of ACPs and Accreditations" under the Published Data menu in TESSA.

This Status is also visible in the Accreditation Details for each organisation on the list:

Home > ACPs and Accreditations > Accreditation Details

ACC0000090 [Service Portal view]
