

## Enhancements to TESSA (June 2024)

### New validation check on the implementation data file

A new validation check has been applied to the implementation data file upload process.

If the Activity definition provided is F1.1, the system will now check the implementation date.

If the implementation date is on or after the 19<sup>th</sup> of June, the below error will appear on screen, and the implementation data file will be rejected.

**Upload Result**

 Red level validation errors are present, preventing upload finalisation. Please resolve and attempt upload again.

☰ Validation Errors

Row of Spreadsheet 	Import Value	Validation Error Message
2	F1.1	Column ESS Activity Definition Certificate registrations for Activity Definition F1.1 stopped being eligible under the ESS Rule for implementations occurring on or after 19 June 2024.
2	2024-06-19 00:00:00	Column Implementation Date The Implementation Date must not be in the future

  Rows 1 - 2 of 2

# The Activity definition description has been changed for the Activity Definition type 'D5'

The Description has been changed to 'Install a new high efficiency pool pump or replace an existing pool pump with a high efficiency pool pump'.

The new description will be visible in the ESS Implementation data public list.

The screenshot shows the 'ESS Implementation Data Public' interface. At the top, there is a breadcrumb 'Home > ESS Implementation Data Public'. Below this is a section titled 'Find an implementation' with the instruction 'Set filter (or leave clear)'. There are three filter sections: 'TYPE' with dropdowns for 'ESS Activity Definition' (set to 'D5'), 'Calculation Method' (set to 'All'), and 'Region' (set to 'All'); 'DATES' with dropdowns for 'Vintage' (set to 'All') and date pickers for 'Implementation date from' and 'Implementation date to'; and 'OTHER' with search boxes for 'Site address postcode', 'Created by', and 'Accreditation ID'. Below the filters are buttons for 'Apply filter', 'Search', and 'Clear', along with an 'Advanced Filter' checkbox. A section titled 'View implementations (with or without filter)' shows summary statistics: 'Notional Certificates: 63.6', 'Electricity Savings: 60', 'Gas Savings: 0', 'Diesel Savings: 0', 'Biofuel Savings: 0', 'Biogas Savings: 0', 'Biomass Savings: 0', and 'On-site Renewable Savings: 0'. At the bottom is a table titled 'ESS Implementation Data' with columns: 'Created By', 'Vintage', 'Accreditation ID', 'Calculation Method', 'ESS Activity Definition', 'Activity Definition Description', 'Implementation Date', and 'Region'. A single row is visible with 'Vintage' 2024, 'Calculation Method' 'Deemed Energy Savings Method - Home Ener...', 'ESS Activity Definition' 'D5', 'Activity Definition Description' 'Install a new high efficiency pool pump ...', 'Implementation Date' '18-04-2024', and 'Region' 'NSW'. A red box highlights the 'ESS Activity Definition' and 'Activity Definition Description' columns for this row.
