## ELECTRICITY SUPPLY ACT 1995

Section 119 (1) (a)

### ORDER

I, Anthony John Roberts MP, Minister for Resources and Energy, pursuant to section 119 (1) (a) of the *Electricity Supply Act 1995* (the Act) declare as follows:

- Each electricity load used by the persons specified in the first column of the Schedule, including any related bodies corporate, ('specified person'), carrying out the activity or industry specified in the third column of the schedule at the location set out in the second column of the Schedule, is either fully or partially exempt from the Energy Savings Scheme in Part 9 of the Act, as specified in the fourth column of the Schedule. For partial exemptions, the exempt portion of each electricity load is specified in the fourth column of the Schedule as a percentage ('exempt proportion').
- Pursuant to section 120 (3) of the Act, in applying the exemption granted by paragraph 1 of this Order, a scheme participant may deduct from the total value of its liable acquisitions, an allowance of 5% of the exempt proportion for losses occurring between the purchase of electricity by the scheme participant and its use by the specified person.
- The exemption granted by paragraph 1 of this Order is effective from 1 January 2015 until revoked. All previous orders are revoked on and from 1 January 2015.
- Pursuant to section 120 (5) of the Act, the Scheme Regulator is authorised to make rules with respect to the exemption granted by paragraphs 1 and 2 of this Order (including rules relating to assessment of deductions under Division 5 of the Act).

I am satisfied that each electricity load to which this Order applies is used in connection with an industry or activity that is both emissions intensive and trade exposed and that the exemption is generally consistent with the objects of Part 9 of the Act.

Dated: 29 December 2014

ANTHONY ROBERTS, MP  
Minister for Resources and Energy
